Claim 29 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The terminology “on a surface or in a substance” is not disclosed or suggested by the specification as originally filed..

Applicant's arguments filed June 5, 2008 have been fully considered but they are not persuasive.

Applicant contends that the support for the newly submitted claim 29 can be found on pages 2 and 7 of the specification.

However, note that page 2 of the specification provides support for the terminology “the use of these compounds for sterilization [of] the rooms and the medical instruments, as well as for the prevention of walls and wooden materials”. On page 7 of the specification provides support for “rooms and medical instruments” and “wall and wooden coatings”. The specification, as originally filed, does not provide for the term “surface” as claimed in claim 29, which encompasses surfaces other than those specifically disclosed.

Claims 30-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
